

Bespoke aluminium extrusion service

Let us bring your ideas to life with a service as individual as your needs.

With years of experience offering our customers tailor made products to meet their exact requirements. ThyssenKrupp Materials (UK) can save you time and money on your bespoke aluminium extrusion requirements.

We can offer a service that can deliver whatever you need and we will be happy to work with you from start to finish to ensure the most efficient and economic option available.

You will benefit from:

- Years of technical expertise
- Continual advice and guidance
- Design optimization to reduce costs
- Stocking of your item for flexible call off
- In-house fabrication of aluminium profiles - cutting, drilling, mitring & machining.
- Parts kitted and packaged to suit your production requirements
- Added value processing options - painting and anodising
- Quality assured to supply materials in accordance with ISO9001

Call your local ThyssenKrupp Materials sales office today to discuss more about how our bespoke extrusion service could help your business.
