

# Distributors of J57S Anodising Quality Sheet

## ThyssenKrupp Materials (UK)

Novelis J57S is the anodising quality grade of Aluminium predominately used for decorative and architectural applications. The developed alloy composition gives you excellent bending qualities along with a guaranteed consistent anodised finish.

ThyssenKrupp Materials UK are distributors of J57S holding a wide variety of sheet sizes from stock ranging from 1.5mm to 3mm thick, from 1000mm to 2000mm wide.

ThyssenKrupp Materials UK also have access to high volumes of coil and sheet stocks via our service centre in Germany. We can supply 1mm to 4mm thick, from 1000mm to 2000mm wide available as sheet stock, or de-coiled to your required length within 10 days.

For a competitive price and quick delivery of J57S please contact your local branch now.
